ANGLE

As a game of inclined planes,... Pure geometry

Angle is a table for large spaces, sculptural, architectural, but, at the same time, it is delicate and elegant. A project of apparent simplicity, but which has detailed technical work.

DESIGN:
SERRAYDELARROCHA

DESIGN: ANDREU CARULLA

TABLE

Angle is an exercise of design where the new material has been the essence and the motivation. SerraydeLaRocha highlight that "its geometry has been studied at the structural level to get maximum rigidity in the simplest way, achieving a visual effect of lightness".
