COQUETA

A woven wicker armchair

Calma has rescued one of Spain's great design classics for its new collection. Bestowed with a Gold Delta Award in 1988, the country's most coveted design award, the Coqueta chair by Pete Sans is both a carefully balanced and a radical piece of design. A milestone in the history of Spanish design, a basket-weave seat is suspended from its seamless stainless steel structure, all of which is held together with its most identifiable detail: a buckled belt which spans the length of the chair.

COQUETA

A design classic in the history of Spanish design, this armchair is characterised by its woven basket seat that is suspended from a stainless steel frame. These components are structurally strengthened by a buckled belt that spans the length of the chair, providing tension. Available in two finishes, a natural and a black, where the former is characterised by a natural colour woven seat and polished stainless steel frame. The latter is characterised by an all black look, with a black-coated frame and a black woven seat.
